PRELIMINARY ASSESSMENT REVIEW

SUBMITTED TO: Paul La Courreye, Site Screening Coordinator
EPA Region IX

PREPARED BY: Min Yao, Ecology and Environment, Inc. *my*

THROUGH: Jim James, Ecology and Environment, Inc. *gmj*

DATE: September 8, 1989

SITE: Hill Brothers Chemical Company, prepared by Judy Heywood of AZ Dept. of Environmental Quality, dated March 24, 1989.

TDD#: F9-8907-041

EPA ID#: AZD008397242

PROGRAM ACCOUNT#: F09Z117PDA

FIT REVIEW/CONCURRENCE: *Chris Lichner, 9/21/89*

cc: FIT Master File
Dan Marsin, Arizona Department of Environmental Quality

RCRA STATUS

The Hill Brothers Chemical Company has been listed in the Resource Conservation and Recovery Act (RCRA) database as a generator since August 14, 1980.

HRS DEFICIENCIES

The Preliminary Assessment adequately addressed the HRS factors. However, the waste quantity information is not well documented.

c/my/hill/parv

CONCLUSIONS

Based on the current Hazard Ranking System (HRS) model, Hill Brothers Chemical Company appears to be eligible for inclusion on the National Priorities List, because:

- o High waste toxicity/persistence characteristics; and
- o High groundwater target population.

The Arizona Dept. of Environmental Quality recommends a medium-priority Screening Site Inspection under CERCLA for Hill Brothers Chemical Company.
